### KEY PROJECTS - <https://arjunpunekar.netlify.app>

---

I have built a personal website to showcase some of the things I have learned. This website has links to my LinkedIn, GitHub and Leetcode where I try to make regular contributions.

#### Arthur Street Cafe

- Basic website for a local café which currently advertises their menu through Uber Eats
- The website is built using React, styled using CSS and uses Email JS to send emails

#### To-do List

- To-do list to showcase what I learned from my Udemy bootcamp
- The frontend is built using React, styled using CSS and the backend is built with Mongo DB, Express and Node

#### Password Generator

- Password generator with options to select length, toggle numbers and symbols with the option to copy generated output
- The website is built using HTML, JavaScript and styled using CSS

## **PROFESSIONAL EXPERIENCE**

---

### **TECHNICAL INSIGHTS ANALYST, RETAIL INSIGHT, 2022 – Current**

- Optimised alerting algorithm to recover an additional \$1.2m in lost sales for a retail client
- Implemented and tested an alert exclusion and suppression engine which increased alert accuracy by 12%
- Implemented new store clustering methodology to improve lost sales recovery for retailers
- Prepare and build weekly reports for retail clients to support commercial decision making
- Tools used include Python, SQL, Snowflake, GCP, Azure Data Studio, Power Bi and Holistics

### **COMMERCIAL ANALYST, WESFARMERS, 2021 – 2022**

- Built an inventory relocation algorithm to identify and transfer inventory to deficit warehouses, increasing lead times on several lines by 50%
- Built financial models to support commercial decision making
- Created and maintained robust suites of reporting on Power Bi that illustrate performance across multiple stakeholder groups
- Supported functional teams by providing analytics and insights to make more informed commercial decisions
- Presented an intermediate excel training course to 250 employees
- Tools used include SQL, Python, VBA, Azure Data Studio

### **AUDITOR, MAZARS, 2019 - 2021**

- Financial audits of small, medium, large and ASX listed companies
- Analytical reviews, substantive testing and controls testing
- Preparation and review of financial statements
- AFSL compliance – review of forecasts and budgets
- Implementation of new accounting standards IFRS 9 and IFRS 16 – preparation and review of credit loss models and lease models
- Macro creation to standardise audit templates
- Mentoring of junior staff

## **EXTRA-CURRICULAR AND VOLUNTEER WORK**

---
